An **Examiner's Amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Dr. T. Gottlieb, on 4/22/04.

Examiner's Amendment to the Claims

Cancel claims 48-51.

The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 30-47 are drawn to a protein-containing hydrogel comprising a polyethylene glycol (PEG) matrix to which is bound one or more catalytically active polypeptides or proteins wherein, (a) the matrix comprises an activated diisocyanate-PEG polymer further comprising unblocked urea groups, (b) the one or more catalytically active polypeptides or proteins having free radical scavenging activity further comprising proteases, metalloproteases and hydrolases and (c) wherein said polypeptides or proteins are directly bound to said diisocyanate-PEG matrix via the unblocked urea groups, and a process for preparing said protein-containing hydrogel .

Art Unit: 1652

Claimed hydrogel is free of prior art. Further, although the prior art suggests methods of preparing hydrogel containing gels comprising diisocyanate PEG bound to free radical scavenger proteins and their final products, said methods require the presence of albumin for gel matrix stability, rendering the instant invention, inherently lacking said albumin requirement non-obvious over the prior art.

Claims 30-47 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
